B. To be completed by the department:

1. Please provide a summary of the purpose of this legislation (Justification Statement).

The purpose of this legislation is to install an all-way stop with all-way plates and stop ahead signs at the Berne Street S.E. with Eloise Street S.E.; Vernon Avenue S.E. and Glenwood Place S.E. Berne Street S.E. is the major street, the street without stop signs, it is also a collector street with a speed limit of 35 m.p.h.

2. Please provide background information regarding this legislation.

Eloise Street S.E. is the minor street with stop signs. An analysis of this intersection found that sight distance was limited to left turn movements. The alignment has challenges with horizontal curvature from Cameron Street. Therefore, an all-way stop sign is recommended at this location.

Vernon Avenue S.E. is the minor street with stop signs. An analysis of this intersection found that sight distance was limited to left turn movements. The alignment has challenges with vertical curvature with the bridge at the Atlanta and West Point Railroad. Therefore, an all-way stop sign is recommended at this location.

Glenwood Avenue S.E. is the minor street with stop signs. An analysis of this intersection found that sight distance was limited to left turn movements. The alignment has challenges with horizontal curvature. There is a retaining wall at this intersection. Therefore, an all-way stop sign is recommended at this location.
